General Report Comments: PROACTIVE

Upon arrival, I observed 2x dogs chained on short chains, approximately 2m long to their kennels.

Dog 1:
Pitbull, male, adult, Tan/white
Chained at the front gate. Has an igloo kennel which provides adequate shelter. Has drinking water and a clean living area. The chain is approximately 2m long and the dog has a chain around his neck as well, as a collar. The dog is in good condition with no veterinary or health concerns observed.

Dog 2:
Pitbull x, female, adult, brown
Chained on the left side of the house, underneath a large tree. The dog has a wooden kennel.and the chain is attached to the kennel. The chain is approximately 2m long. The dog also has a chain around the neck as a collar. The dog is in good condition with no veterinary or health concerns observed.

I saw an installed runner next to the dog, the runner is about 7m long, it is unsure as to why the dog is not on the runner

- I left a warning:
- 1. Place both dogs on runners
 - 2. Provide both dogs with suitable collars
- 7 days granted
