General Report Comments: PROACTIVE

Upon arrival, I saw a dog chained and lying in its kennel, which provided adequate protection against the weather elements. I called the dog to see how long the chain was and as the dog came out I saw the chain is very short, approximately 1.5m long. The dog had a leather collar fitted. The dog is in good condition with no veterinary or health concerns observed.

I issued a warning:
1. Place the dog on a runner.
