General Report Comments: Upon arrival, I was met and granted access to the property by a man, identified as Zing. He is a foreign national, from Korea.

Zing took me through the garage to the back section of the property.

I observed 1x GSD, Male, adult dog that is in good condition (BCS 3/5). The dog has access to a large bucket of water, the bucket appears to have algae inside, but when I touched the sides it was clean and the bowl is just stained in the inside. The dog is fed Montego classic and is fed 2x day. The dog has the entire back yard to roam, as well as a section of the front yard. The back yard is cemented and clean. The dog's living area is evidently hygienically maintained. The dog has a soft and shiny coat. The back door/section is under cover (20m x 20m) roof structure which provides the dog with adequate protection against the weather elements.

In my opinion this was/is a bogus complaint as there are no APA contraventions observed.
