General Report Comments: There was no people at home. I saw 1x black terrier x male on the property. The came running to the gate and I could clearly see that the dog has a skin problem because the dog has some bare patches around his legs and back. I could see water for the dog on the property but I could not see if the dog have any shelter because I could not enter the property. Body condition is fair. I issued warning W5079 to provide the dog with treatment for the skin condition he has. Will follow up.
