General Report Comments: Upon arrival, I was met and granted access to the property by the owner.

We went to the side of the house to see the progress of the building of the enclosure .

The layout has been digged, the enclosure will be approximately 5m x 2.5m. Yesterday the person that assisted her broke an underground sewage pipe, and now they have to wait for this to be fixed before the can continue. They have all the material ready, the fence, the gate, the poles the cement. The entire area will also be cemented.

I will come to the property in about 3 weeks time, as they should be done by then.

The dog has been moved to the front of the property and is still on his extended chain, the chain is approximately 6m long. He has a material collar fitted with a swivel and has access to a makeshift kennel which provides adequate protection against the weather elements.
