General Report Comments: PROACTIVE

Upon arrival, no one appeared to be home as there was no response to my presence.

I saw a dog inside laying inside a small plastic crate, that has been placed on its side with a cussion inside and a rain jacket thrown over the top. The dog can barely fit inside the crate as the dog is a bit too big. The dog is also tethered to the fence pole with a light rope attached to a material collar fitted. The dog did not have access to drinking water.

The property is jot adequately fenced as there is large holes in the old broken fence, there is also no gate to the property.

I issued a warning:

1. Provide dog with water at all times
2. Provide suitable sized kennel which will also provide adequate protection against the weather elements.
3. Place the dog on a runner
