General Report Comments: PROACTIVE

Upon arrival, no one appeared to be home as there was no response to my presence.

I observed 1x dog chained to his kennel, in the front section of the property. The light chain is approximately 3m long. The dog had a suitable material collar fitted. The kennel is large and wooden which provides adequate protection against the weather elements. The dog appears to be in a condition with no veterinary or health concerns observed. The dog had drinking water.

I issued a warning:
1. Place the dog on a runner
