General Report Comments: Upon arrival, I was met and granted access to the property by the owner, Laqreece.

She showed me the cable they bought, but the cable is too thin and the dog will easily snap the cable. Laqreece then asked me to wait and she went into the house and brought out a chain with a link and a swivel, she asked that if they cant attach this chain (8m) to the current chain(6m) rather, as the lenght will then be 14m. I said that it will be much better for the dog, as he will have more roaming space.

She said her husband will be home tonight and she will then advise him to attach the chains.

I will come by next week to see that the dog is on the longer chain.
