General Report Comments: Upon arrival, I was met and granted access to the property by the property owner, Ansie.

I saw the dog on the runner and the runner was working effectively. The have attaching swivels and the dog had a strong body harness on. Ansie advised that he kept braking the collars, so they are trying the body harness and so far it has been working. The dog had water, adequate protection against the weather elements, a clean living area, in good condition with no veterinary or health concerns observed.

The dog had sufficient space to roam now, and also seem friendly and calmer. Ansie was happy with the improvements they implemented and thanked me for the education as she understands now the importance of space.

I will close this case, as the owner complied, and there are no further APA contraventions.

This dog's welfare has certainly been uplifted, from a 2-3m static chain to a 30m runner.
