General Report Comments: PROACTIVE

Upon arrival, no one appeared to be home as there was no response to my presence.

I observed 1x xbreed dog chained at the front door of the property. The cahin is approximately 1.5m long attached to a material collar with a swivel. The dog had adequate protection against the weather elements, water and a clean living area. The dog was outside his shelter, and from what I could see before the dog climbed back, is that the dog appears to be in good condition with no veterinary or health concerns observed.

Warning issued:
1. Place the dog on a running chain
