ANIMALS IN GOOD CONDITION	No ***	Both dogs is underweight, possible tickbite fever
VETERINARY PROBLEMS / HEALTH CO	Yes ***	Underweight,possible tickbite fever.
CONFINEMENT OF ANIMALS	Static Chain - adequate length	Unknown as the owner was not there.

General Report Comments: I drove pass this plot and saw 1x black and brown dog next to the fence. I got out of my vechile because something did not look right with this dog. Upon closer inspection I could see that the dog is underweight and looks to like the dog might have tickbite fever. The dog is on a +- 5 meter long chain with a collar. Water and shelter is available. There was no one at home. I walked around the property and saw another dog on a +- 5meter long chain with a collar. This dog also appeared to be underweight. Water and shelter was also observed. I issued warning W5095 to get both dogs veterinary treatment because they might have tickbite fever. Will follow up.

ACTIONS

Warning Issued W5095

REPORT OUTCOMES

Follow-up inspection to be conducted 2024-07-22
