General Report Comments: Upon arrival, no one appeared to be home as there was no response to my presence in.

I observed 2x dogs kept on chains, approximately 4m long. The front dog did not have a suitable collar, as the dog has a chain around the neck. The back dog had a material collar fitted. Both dogs have access to large wooden kennels, which provides adequate protection against the weather elements.

I issued a warning:
1. Place both dogs on runners
2. Provide a collar for the front dog
3. Deworm the back dog and feed 2x day.

Will recheck in 7 days
