General Report Comments: I saw 1x tan Labrador female inside a big camp. The dog has shelter and water available. Body condition is acceptable. The living area is untidy,dog poo lying around. There is also Bobwire inside the camp that can hurt the dog. There were also dog pellets lying on the ground and no food bowl was observed. I issued warning W5559 to clean the dogs living area and to take the bobwire out of the camp before the dog gets hurt. Will follow up.
