General Report Comments: PROACTIVE

Upon arrival, no one appeared to be home as there was no response to my presence.

I observed 1x dog chained to his kennel. The chain is approximately 2m long and the dog has a chain around his neck as well. The dog has a large wooden kennel which provides adequate protection against the weather elements. I could not verify if the dog has water. The dog appeared to be in good condition with no veterinary or health concerns observed.

Warning issued:

1. Place the dog on a runner within 9 days
2. Provide the dog with a suitable collar within 24hrs.
