General Report Comments: I was met by Ian Pieters who is the owner of the dog on the property. I saw 1x brindle terrier x male on a 8 meter long running chain with a collar around his neck. I asked Ian if the the dog can tangle his chain around the pillar on the steep and Ian said no the dog has never tangled him around the pillar and if he does his wife is at home everyday and won't let the dogs chain be tangled and does nothing about it. I asked Ian to call the dog so that I can see if Rex can go around the pillar, he can go around the pillar but not as much for him to tangle his chain. Rex body condition is acceptable. Water, food and shelter was observed. I contacted the complainant and gave her feedback, the complainant does not understand why the dog has to be on a runner after I explained to her that Rex can't be let loose because they live next to a highway and the property is not enclosed. No welfare concerns observed. Nfa until further notice.
