General Report Comments: Upon arrival, I was met and granted access to the property by the owner.

I observed the dog chained again. Mr Pears was verbally hostile towards me and stated that he is not happy about the SPCA visiting his property so frequently, and that there are many other dogs on chains but that he feels targeted.

He stated that his dog was apparently free roaming earlier today and that my timing sucks.

He also stated that he did not have the resources to buy a cable or make a plan regarding wire or a cable and also said that the runner will be in his way when washing is hung or if they have to move around the property.

I advised him that the dog must be placed on a runner as the current space is not adequate, regardless if the dog was free roaming 10min ago.

I issued a warning:
1. Place the dog on a runner
