General Report Comments: PROACTIVE

Upon arrival, I was met and granted access to the property by the owner.

I observed 1x dog chained at the front of the property. The light chain is approximately 5m long, attached to a swivel onto a material collar. The dog has a drum for shelter. The dog is in good condition with no veterinary or health concerns observed.

I asked the owner as to why the dog is chained and she advised the dog jumps the fence.

I advised the owner to place the dog on a runner as there is sufficient space on the property to do so. She said she will have this done.

Warning issued stating:
1. Place the dog on a runner
