General Report Comments: Upon arrival, no one appeared to be home as there was no response to my presence.

I approached a makeshift cage which is erected at the front door and saw the dog of concern inside. The cage is made from wood with an asbestos roof. The cage is approximately 2m x 2m. The inside of the cage was full of faeces and the protruding smell was rather bad.

The dog appears to be in good condition with no veterinary or health concerns observed.

I issued a warning stating:

1. Clean the cage and hygienically maintain it thereafter. - 48 hrs
2. The cage must be enlarged by at least 3m on each side. - 7 days
