General Report Comments: PROACTIVE

Upon arrival, I was met and granted access to the property by the owner.

I observed 1x dog tethered to a pole, the dog has 360 degrees movement space. The rope is approximately 2.5m long.

According to the owner, the dog jumps the neighbor fence and causes trouble.

They are in the process of enclosing the property well for the dog to free roam, however it will take time.

I advised they place the dog on a runner as this will grant the dog more movement space.

Warning issued:

1. Place the dog on a runner.
