General Report Comments: I did a inspection at the security company called Dog and All I was accompanied by inspector Jameson October. We arrived at the farm approximately at 10.30am. Apon arrival Mrs Smith welcomed us to the farm and Mr Smith also joined us.

We introduced ourselves and the reason we were there and they welcomed us and we started the inspections.

We asked all the documents starting with the :

PAPA

PSIRA

Dog Handler certificate

Dog trainer certificate

Dog files and vet book and they provided the documents and we asked to make copies and they gave us.

We also asked to see their equipments when they are training the dogs and aslo the feeding room was inspected.

We moved to the dipping area and we saw the dip was dirty and we addressed it to the owner .

We moved to the kennels to inspect the living conditions of the dogs . All the dogs have adequate cages and shelters and we observed the water bowls was dirty and having the green stuff that it wasn't cleaned for the long time and some feeding bowls were damaged and they cause an injury to the dogs.

They have one Rottweiler dog who is sick on the farm and he is placed at the quarantine area and he is on treatment for tick bite fever and the treatment is getting is doxydog 300mg and doxyvet 50mg.

We did not observe any fence fighting between the dogs , no behavioral issues was observed for example excessive barking, jumping, pacing up and down against the fence, no external parasites was observed and the body conditions of the dogs is acceptable.

A warning was issued warning number W5506.

To scrub all the water bowls

To remove some pallet from the one camp because of open spikes on the pallet .

To remove and clean up the feaces that was stuck next to kennel C11 immediately.

Fix the fencing and kennel A3 and kennel A14.

To change the water in the dip bath.

We will recheck after 6 days to see if they have rectify the problems.
