VETERINARY PROBLEMS / HEALTH CO	Yes ***	Underweight, possible tickbite fever
CONFINEMENT OF ANIMALS	Free roaming - property not adequ	

General Report Comments: I saw 1x brown terrier x male sitting against a hokkie, upon closer inspection I saw that the dog is underweight and it look like the dog might have tickbite fever. There was no one at home. Water and shelter is available. I issued warning W5513 to provide the dog with veterinary care. As I was about to leave someone approached the Spca vechile and introduced himself as Howard Lewis, and that he is the owner of the dog called Simba. I asked Howard why the dog is so underweight a d if he has food for the dog. Howard said yes he does have food for the dog but the dog does not put on weight. I asked Howard if he will be able to take the dog to the vet and he said that he does not have that kind of money. I gave Howard the option to surrender the dog which he agreed too. Refer to admission D9010. Nfa until further notice.

ACTIONS

Warning Issued W5513

REPORT OUTCOMES

Case finalised - NFA
Animal(s) signed over D9010
