General Report Comments: Upon arrival, no one appeared to be home as there was no response to my presence.

I observed a runner cable has been installed, the runner is approximately 8m long. The 1 dog has been placed on the runner. The other dog was free. Both dogs had suitbale collars on. The dog thatnis free appeared to be tethered as he had a leash attached to his collar where he was laying, but the leash was not attached to anything.

The neighbor form nr 24 approached me and advised that the owner is at work, but that he is still busy with the runner, and will install another runner on the opposite side for the other dog.

I will come by next week to monitor progress.
