General Report Comments: I was granted access to the school by the principal, Mrs. Elsabe Martin who took me to the rabbits enclosure where I observed 8x rabbits and 1x goose. I asked Mrs. Martin if the rabbits are being let out when the kids are outside and she said no, there is only 3x rabbits that loves to jump over the 1,4 meter wall and explore the school grounds, but the rabbits is never out when the kids are in the play area. The kids are only allowed to feed them and they can't pet them because the rabbits are all wild. Mrs. Martin also told me about the 1x rabbit that was hit by a car, and that the rabbit was 1x of the 3x rabbits that can jump the wall. Inside the enclosure there is water, food and shelter available. The rabbits it's and the 1x goose is in acceptable conditions. Mrs. Martin told me that they will extend the wall with chicken mesh so that the 2x rabbits that still jumps can't get out. Will do a recheck to see if the wall has been extended so that the rabbits are being kept safe and out of harms way.
