General Report Comments: Upon arrival I saw the pony running along the fence as I entered the farm. I was met by Mr. Snyders the owner, he went into the barn and got some lucern bale and called the pony and she came running towards the barn. The pony is doing good and is in acceptable condition. Mr. Snyders told me that she is a different horse after the hooves has been done. I told Mr. Snyders that he must let Mr. Hiema who did the hooves come every 6 months to trim the hooves then he won't have the problem of overgrown hooves. Water, food and shelter available for the horse. NFA until further notice.
