General Report Comments: Upon arrival, I did a drive through some of the kraals, and then went to the area where the sheep are left in the day to graze. I check the sheep and they all appear to be in good condition with no veterinary or health concerns observed. Some areas I could not enter as the gates were closed.

I will do a kraal to kraal visit next time and go early in the hopes of finding the owners/caretakers.

The kraals I could see today are in good repair, the animals had water and appeared to be in good condition with no veterinary or health concerns observed.
