General Report Comments: Upon arrival, I was met and granted access to the property by the owner.

I observed the kittens of concern, and it is evident that the medication is effective as their stools are solid and the anus's appear to be better and not as red as well. The owner obtained deworming for all her cats and asked that I assist her to give it to the cats. I helped her with this. She is also now feeding Epol, instead of Catmor.

Ive give the owner the option to surrender some of the cats, and she is keen on surrendering the kittens when they are 8 weeks old. She will let me know.

She also asked for assistance regarding sterilization, I informed her regarding the procedure and she advised that she will look at sterilizing at least 1x cat a month from January 2025.

I will do a routine check in 2 weeks time.
