General Report Comments: I arrived at the property and was granted access by Mr Malawi to do an inspection. There was an adult female dog named Shadie and 2 puppies. The female dog is in a good condition. Not underweight. I asked Mr Malawi if he has dog food as we were advised that the dog is eating out of bins. He said to me that that is untrue and showed me the food. Mr Malawi said that he does not have money to sterilise the dog and he would like to have her sterilised so that there are no more puppies on the property. We received a sterilisation sponsor from a member in Darling so luckily I could say to him that we can sterilise his dog. He also surrendered the 2 unwanted female puppies to the SPCA. I took the female dog and she has an appointment to be sterilised on Friday 6 November 2024. There are shelter, water available and the dog is running freely. The 2 puppies are not adoptable and they were humanely euthanased.

ACTIONS

OTHER Dog taken for sterilisation.
