General Report Comments: Upon arrival,I did not see any dogs on the property. I hooted a few times and a brown boerboel x female came from the other side of the house. The first thing that I observed was,that the dog has a prolapse. A young man came from inside the house and introduced himself as the cousin of the owner of the dog. The owners name is Abraham Has,I asked the cousin if Mr. Has us at home and he told me that his cousin is working. I also asked if the dog has received any veterinary treatment for the prolapse and he said no,not that he knows of. The dog has water and shelter available and is loose on the property. I issued warning W6006 to seek veterinary treatment within 24 hours. Will follow up.
