General Report Comments: There was no one at home upon my arrival. I saw 1x black and tan German shepherd female in a confined space between the safety gate and the door of the entrance to the house. No water was available. The German shepherd female body condition is acceptable. I issued warning W6590 to remove the dog from the small space and to provide the dog with water. As I was about to leave,the owner came home,she introduced herself as Arlene. Ms. Arlene told me that she only went out for a moment,the reason why she put the dog in the entrance is because she tries to jump over the wall when nobody is home. Arlene immediately let the dog Chloe out. Inside the property I observed water,food and a kennel. Arlene also told me that Chloe barks alot and that the neighbors are starting to complain about her barking. No other welfare concerns was noted. Nfa until further notice.
