General Report Comments: There are two dogs on this property. The adult female dog is unsterilized and constantly pregnant. Her body condition is fair and acceptable. She is loose despite the property not fenced. She does have access to a kennel which she shares with her puppy Gina. Gina is a juvenile female dog. She is tied with a leasch that is about one and a half meter long. Gina have access to shelter and fresh drinking water. Her body condition is fair and acceptable. The living environment is clean. Ms Makoko want to sterilize the adult female dog named Killer but she doesn't have the money. I issued a warning advising her to remove Gina from the short leasch or set up a running chain then the SPCA can help her to sterilize Killer.
