Comments: A monkey which appeared to be a vervet monkey was seen at the shopping Centre on top of the roof Block C and jumping around the trees. JHB wild life was called to ask for a monkey trap:- they don't have it. We called Claws and agreed to bring the monkey trap while we were there on the scene unfortunately the monkey jumped out of the shopping Centre to another block. We rushed into our cars to follow it
I asked the security if he saw a monkey and said yes he did see a monkey which it ran out street and started climbing the trees. We looked around to find a monkey but did not see it anymore. I went to fetch a monkey trap from Cora so that when it comes again or being spotted I'll set up a trap.
It appeared to be in good condition.
