Comments:	Upon arrival at the property, the owner came to me at gate to attend to me. He informed me that the cattle and a goat were slaughtered. I asked him to check and opened the gate for me to enter to confirm. Both animals were already slaughtered and cut into parts. I enquired about the method used to slaughter. There were 2 guys who were hired to deliver and slaughter. Their knives were not of a proper size and the slaughtering knife especially for large livestock was not a suitable condition. It appeared to be uneven edges on the blade. I was told that the animals were delivered this morning to be slaughtered from Kempton Park. The owner conducted the event without following the proper channels. He said that the event was for Thanksgiving. I gave him a written warning for future purpose to conduct such an event by following the correct channels. Warning no. VX 0604. No other animals were on the property. Case finalized
