CONFINEMENT OF ANIMALS	Free roaming - in property

General Report Comments: The dog, "Genie's" condition had improved. He said he was told that the dog has a flea allergy by the vet. He showed me the medication given to him for treatment. When I asked Max about the dogs being on the street he said that he keeps them in the backyard but his father would mistakingly leave the dogs in the front yard and that's how they get out. The dogs are held at the back as monitoring measure and that is where found them during my inspection.
