General Report Comments: At the property, no one was home. There was a poster displaying an advert on the car garage for renting of a cottage. I took the phone numbers and contact the number and it went through a gentleman named Kayode Adebayo who confirmed to be the property owner. He did mention that the dogs do run out of the yard but he is not sure where they get out and he is still working on it. There was a chicken mesh put up along the fence to block off holes but appeared to be disorganized and seemed like the dogs may be trying to climb on the mesh. He said he works 7 days a week between 6:00 and 19:00 but his son goes to school and comes back early he will call him to make arrangements for me to let me into the property. He said he owns 3 dogs but I could only see one dog at the gate. I told him I'll be awaiting his call soon so I can come to properly see the living conditions of the dogs. To follow up tomorrow
