Both dogs have some fly bites and Thunder also has some pre

General Report Comments: Both dogs have some fly bites and Thunder had some pressure sores at his back . I asked the owner owner if he has taken the dogs to the vet for treatment and he told me that he did and the very advised him to by some Sho fly for the treatment of flies and some wound medication and antibiotics which he is using for the treatment of flies and pressure sores. The back pressure sore was healing. I need to do the follow up in a week time to check if the medication is working.
