General Report Comments: Upon arrival at the property I was given permission to enter the premises by the owner of the property Mr Frans Boroko. He indicated to me that he has consulted with his lawyer and that he has been advised that our Act was outdated. I educated him about the Animals Protection Act. I noted that he has moved the chicks into a room that didn't have sufficient ventilation and that he had them confined without provision of food and water. He told me that he feeds and give the birds water on specific times. He told me he had not consulted the municipality to sought out permission to operate his business on residential property.
