CHECKLISTS

General Report Comments: No vervet monkey was seen at location sent to us. When I got to boom entrance at Tudor Avenue, I spoke to Thabo the security officer of Savika Security he said he only saw climbing onto a aerial post and jumped from tree to tree. He said the monkey did not show any sign of injury or of being harmed the last time they saw the monkey. Drove around the neighborhood and asked around no one else saw the monkey. No further action was required but to monitor the monkey's movements and wellbeing.

ACTIONS

OTHER Lost known location of the monkey
