Comment:
Were Animals Seen on the Property: No

CHECKLISTS

General Report Comments: Upon arrival at the property Thato told me that they were walking their dog to the Sandton SPCA when they walked past the property of the complainant their dog pulled off a leash and it started fighting with the complainant dog. They said they shouted for help and that's when the complainant got out and everyone assisted in separating the dogs. They all came to the SSPCA to hand in their dogs for treatment. Thato didn't have any dogs and the space they said they were keeping the dog was not suitable to house dogs. It was small and there was no shelter. I advised them not to come and claim the dog from the clinic.
I went to the complainant to check a situation from their side and I did not find any dogs. Their injured Pitbull was at the SPCA still. Thato didn't claim his dog but the complainant claimed his dog and it was released to them after treatment and it was sterilized too.
