General Report Comments: Upon arrival the dog was kept in an area which which is approximately 10m by 3m and and the owner told me that that her tenant owns a pre school and kids are scared of the dog. She only opens at the dog after school. I had to educate her that she needs to divide her property into two. One of the the rabbits has an ear and skin infection. She told me that she bought the medicine for treating but know its finished. I had to to give her a warning to take the rabbits to the Veterinary for treatment. The other rabbits appeared to be in good condition. The cages which the rabbits were kept where approximately 1m x1m and they are kept in 2s. I had to educate her that SPCA is against caging of animals.
