General Report Comments: Upon arrival at the property the owner of the dog was present. He came to the gate and he was extremely angry that there was a complaint about his dog. He told me that he was tired of the racist white neighbors and he was not prepared to talk to me or do anything until I bring the complainants. I tried to talk him down and explain to him that he needs to take the dog to a vet and I also notice evidence of chaining. He threatened me and the street security had to pull him away because he wanted to attack me. I issued him with a written warning letter but he took it through it inside my car. He said he had a Rottweiler before and it was positioned by his neighbors because they were feeding it without his permission. He said I should contact Dr Baker if I want to know about him animals. He told his son to bring a bag of dog food to show me that he was feeding the dog. I tried to educate him about deworming and vaccination but this conversation didn't go anywhere.
