General Report Comments: Upon arrival at the property I found two dogs on the premises. They were both old and the one 'black and tan colour had an eye discharge and what looked like the start of a cherry eye. Both dogs were indeed adopted from SPCA's, Midrand and Randburg. The owners stated that they could no longer afford private vet fees and they were concerned about the one dog with an eye discharge. They mentioned that the impact of covid 19 changed their financial situation in a negative way. It was a difficult task in convincing the owners to surrender the dogs but eventually they did. Both dogs were brought to the SSPCA and they were humalely put to sleep.
