ANIMALS IN GOOD CONDITION	Yes	
VETERINARY PROBLEMS / HEALTH CO	No	

General Report Comments: An Alligator appear to be in a suitable enclosure is not yet fully grown still a Juvenile and it has been kept temporarily in that tank is going to be moved in a larger tank
The horses don't appear to be under-fed and I've checked the feeding room and I saw the food for the farm animals including horse food.
The bears appear to be in acceptable physical condition. The was meat provided observed and enrichment for the bears.
I did not observed the shouting of lions and I was informed by Mr Victor the glass doesn't penetrate sounds when people are shouting. And the lions appear to be in good physical condition food, water and shelter is provided.
They even have infra-red lights to keep them warm during night time. Man made lion den observed.

Recommendations:-

The farm yard should provide more water buckets so that the animals have have easy access and must place under the shade so that summer time the drinking water does not get hot
The farm yard should provide feeding trough to make.
The water place must at least be cemented with concrete so that it doesn't become muddy. The hooves can get infected when the is too much mud.

ACTIONS

OTHER Further discussion with Snr Stephen

REPORT OUTCOMES

No welfare concerns found - NFA

NO CONTRAVENTIONS OF THE APA -

INSPECTION ANIMALS
