General Report Comments: Upon arrival at the property I met with the owner of the dogs. He gave me permission to access the area where he's dogs were kept. I saw 3x adult dogs, cross breeds and 4 x puppies that were 4 months old. The dogs appeared to be in good physical condition but the area where the lived was dirty and full of plastic and others dirt. There was no provision of water for the dogs. The owner was educated and issued with a written warning to clean the area and keep it hygienic. They seem to be leaving the gate open during the day hence the dogs go out and collect rubbish onto the property. The owner was advised that this is unacceptable. But there whole building in the back is also looking like a squatter camp. I also noted that Mr Mpofu operates a panelbeating business because there were a number of cars in for repair. I made arrangements with the owner to take all the dogs for free sterilization and inoculation for Free.
