General Report Comments: Upon arrival at the property I was able to gain access onto the property after I contacted Gudrun Burns and she instructed the domestic worker to let me onto the property to conduct an inspection on the living conditions of the dog.
Upon conducting an inspection I noted that the dog had provision of potable water which was available in a suitable pond. The dog was sleeping inside and had access through the house anytime of the day. There were plenty of other areas the dog could use as suitable shelter where there was sufficient shade as well.
No violation of the Animals Protection Act was found.
The domestic worker also mentioned that she spoke to Ms. Burns and she told her that she was making arrangements for the dog to go to Cape Town where she resides.
