General Report Comments: Upon arrival arrival the dog appeared to be in good condition. I spoke to the owner about his dog attacking another dog and he told me that he was not around, he had been admitted at the hospital they brought him today. He does not know anything. I asked Andrew and he told me that one of the tenants went out and left the gate open and the dog went outside on the street and they heard that it attacked another dog. I had to educate them that they need to divide their property into 2 and make sure that the dog does not follow them when going outside the property.
