General Report Comments: Arrived at the property, Mr Kondiah and his wife invited me into the house. 2 dogs as detailed above were in acceptable physical condition. Potable water and adequate shelter were available outside but the dogs sleep indoors. They said the Husky tends to be noisy that's why the neighbors complained. The owner revealed that the Husky was diagnosed with epilepsy and he's on medication. I still advised them to neuter the when they get chance and when their vet see fit to do so. They promise to neuter them when the Husky is older. No violation of the Animals Protection Act was found.
