CHECKLISTS

General Report Comments: As I stopped at the property next to the gate, a man named Walter approached me saying his brother moved out of the house to East Rand but did not have the address or his contact info. He mentioned that he was arrested released on Monday 4th of December 2022. Walter said that he was charged by a fellow caretaker for assaulting him on the same property who is said to had poisoned some his brother named Roger. He alleged that the man's name was an old man Eric Sussman, a nyaope addict who likes yelling at the dogs when they start barking. He also alleged that he had to bury some of his brother's Min Pin puppies from being poisoned by a Rattex in the backyard. He said he had no contact with brother saying he really loved his dogs(4) and he was once saved by the dogs in a fire incident when they were sleeping. I asked Walter to contact me if he ever got in touch with his brother, Roger and gave him my phone number.
