General Report Comments: One puppy appeared to be sick suspect parvovirus and the owner did not take the puppy to a vet. He had to surrender the puppy to the Sandton SPCA and I had to euthanise it. The other puppies appeared to be underweight. I had give the owner a warning to take it to the vet. I also had to educate him that if it's parvo its contagious the other puppies will need to be checked by a vet.
