General Report Comments: Upon arrival at the property, the owner was about to leave the house but I stopped him so I could speak with him. He walked me into his house showing me the animals he owned after I had explained the purpose of my visit. He owns 6 dogs, a few exotic birds including pigeons, 4 chickens and 2 pigs. Mr Alexandra ridiculed all of these allegations saying his pigs are not even kept as livestock but as pets instead. He asked for the name of the complainant saying their crazy. I advised him that he may not keep more than 4 dogs over the age of 6 months on ERF in terms of the by-laws. I offered him to get them sterilized but he mentioned that he has a bad history with an SPCA and no longer trust us and wanted to chase as soon as I brought it up. The animals had water suitable shelter and they appeared to be in acceptable physical condition. He has a worker who comes to clean his yard every day and I advised him on a few things to improve. No violation of the APA was noted.
