Comments:	The owner came to our office demanding to have his dog back . We sat him down in a discussion asking about the situation we found the dog in. He claimed the dog got out the yard at least twice ending up in an attack with other neighbour's dogs. He said this happened 2 days ago everytime the gate is being opened but he still planning to take the dog to a vet when he gets cash. We asked him if he's fighting the dog but he denied all allegations. We told him that the dog was still under treatment by the vet and we will be able to advise on a way after the vet's report because the matter was now a on-going serious investigation we will inform him about any updates.
